### **Matres International Women's Ceramic Festival Experience 28 - 30 August 2020.**

The exhibition is throughout the Festival and is open to all potters. The event will be online with connections from all over the world with the typical tea ceremonies created for the occasion and will have a printed catalog.

This competition in the design of tea objects stems from the global expansion of the tea culture. Encourage international ceramic artists to focus on design, innovation, technology and the production of tea objects.

We are looking for a variety of subjects ranging from the teapot, to the cup or to all those objects that enrich the world of tea that can be ornamental or functional. We hope this competition will stimulate discoveries and results in the ceramic tea field. Through intercultural exchanges on the art of tea, reaching a wider and more global perspective.
